# SITUATION SUMMARY

## **Oroville Dam Auxiliary Spillway Incident**

On 02/12/17 at 1603 hours the California State Warning Center (CSWC) received notification from the Department of Water Resources (DWR) automated line that the Oroville Dam was in failure status due to extreme scouring of the auxiliary spillway. The CSWC are made notifications according to SOP. All down stream warning points were notified.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) as of 02/14/17 at 1800 hours:

- Current releases from Oroville Dam (100,000 cfs) are within the downstream channel capacities in the Feather River.
- Inflows are at 26,000 cfs. substantially less than the outflow releases.
- The lake elevation has dropped below 884.76 feet as result, no water is flowing over the auxiliary emergency spillway.
- The target is to drop the elevation at Lake Oroville to 50 feet below 901 feet before the arrival of the next atmospheric river.
- The plan to prevent further erosion utilizes trucks, helicopters, and hand crews to move large rocks and gravel to fill holes in the emergency spillway.
- On 02/14/17 at 1430 hours, Cal OES Law Enforcement Branch confirmed that all mandatory evacuation for Yuba, Sutter and Butte County were changed to "Advisory" status. These counties are now allowing citizens to return to their residences.

## **Activations**

- The Cal OES State Operations Center (SOC) activated at Level 4 in support of the Oroville Dam Incident
- The Department of Water Resources (DWR) Department Operations Center (DOC)
- The DWR Flood Operations Center (FOC)
- Caltrans Headquarters EOC is activated at Level 1
- PG&E EOC
- Butte EOC
- Merced County EOC
- Modoc County EOC
- Sacramento County EOC
- Sutter County EOC
- Sutter County, City of Live Oak EOC
- Yuba EOC (Relocated to Nevada County)
- Yolo EOC

# SITUATION SUMMARY

## Cal OES INLAND (continued)

### **Proclamations**

- Governor Brown issued a Proclamation of a State of Emergency on 02/12/17 due to the Oroville Dam Auxiliary Spillway Failure.
- **Butte County**
  - On 02/13/17, the CSWC received a proclamation from Butte County due to the Oroville Dam Auxiliary Spillway Failure. There are no requests for state assistance at t this time.
- **Yuba County**
  - On 02/13/17 the CSWC received a proclamation from Yuba County due to the Oroville Dam Auxiliary Spillway Failure requesting Gubernatorial and Director's Concurrence.

### **Deployments**

- 1 Cal OES Inland Emergency Services Coordinator (ESC) deployed to Nevada County for Yuba County
- 3 Cal OES Inland Region ESCs deployed to Butte County
- 1 Cal OES Inland Region Senior ESC deployed to Butte County
- 2 Cal OES Inland Region ESCs deployed to Sutter County EOC
- 1 Cal OES Inland Region Deputy Regional Administrator (DRA) deployed to Butte County
- 1 Cal OES Inland Region DRA deployed to Chico area
- 1 Cal OES Inland Regional Administrator deployed to Butte County
- 1 Cal OES Coastal Region DRA deployed to Butte County
- 1 Cal OES Coastal Region Sr. ESC deployed to Butte County
- 1 Cal OES Coastal Region ESC deployed to Sutter County
- 1 Cal OES Southern Region Sr. ESC deployed to Butte County
- 2 Cal OES Southern Region ESCs deployed to Butte County
- 1 CALFIRE Incident Management Team (IMT) Type 1 assigned (Team 3) at the Oroville Dam ICP.
- 4 CALFIRE Assistant Chiefs assigned are in the Fire EOC.
- 1 Emergency Management Coordinator to DWR DOC.
- 1 Public Safety Communications Technician

# **SITUATION SUMMARY**

## **Cal OES INLAND (continued)**

### **Critical Infrastructure**

- Per California Utilities Emergency Association (CUEA) on 02/13/17:
  - All utilities are presently stable.
    - The grid is currently stable provisions have been made to provide sufficient power to meet all needs.
    - The natural gas system is operational with no impacts.
    - Cellular Coverage has been increased.
    - Strike teams and water command trailers have been staged and are available if needed.
- Per Union Pacific Railroad (UPRR) on 02/13/17:
  - Union Pacific has rerouted train service through cities in Placer and Butte counties due to the Oroville Dam emergency.
  - Customers in the affected area could experience shipment delays for 48 hours or more

### **Evacuations**

- Butte County: Approximately 35,000 people
  - Mandatory Evacuations
    - City of Gridley
    - City of Palermo
    - City of Thermalito
    - City of Wyandotte
    - City of Marysville
    - Yuba City
- Sutter County: Approximately 65,000 people
  - Mandatory Evacuations:
    - Unincorporated portions Sutter County
    - City of Live Oak
    - City of Marysville
    - Yuba City
  - Recommended Evacuations:
    - Yuba City is under recommended evacuation.
- Yuba County: Approximately 65,000-70,000 people

# **SITUATION SUMMARY**

## **Cal OES INLAND (continued)**

### **Schools**

- Butte College is closed
- Butte College buses will not be running.
- All schools in Butte County are closed except those located in Chico and Paradise.
- All Butte County Office of Education offices are also closed

### **Tyler Island Levee Incident, Sacramento County**

On 02/13/17 at 1150 hours the Flood operations center was notified that Tyler Island is experiencing a rotational slope failure along the southern part of the island on the Mokelumne River. Tyler Island was expected to flood due to the compromised levee.

- On 2/13/17 at 1500 hours, Sacramento County confirmed there is no breach in the levee near Tyler Island.
- The Reclamation district has ordered 100 ton of rock and heavy equipment which is enroute.
- At this time, there are no unmet needs, no shelters open, or request for more resources.

### **Evacuations**

Per the Cal OES Law Branch as of 02/13/17 at 2045 hours:

- The Sacramento County Office of Emergency Services is strongly advising the residents of Tyler Island to evacuate.
- An advisory evacuation for East Walnut Grove has also been issued.

# **SITUATION SUMMARY**

## **2017 Statewide February Winter Storms**

### **State Agencies**

#### **Activations**

- The State Operations Center (SOC) is activated to level 4.

#### **State/Federal Agency Preparatory Activities:**

#### **California Nevada River Forecast Center**

- The California-Nevada River Forecast Center is currently at 24-hour staffing through the weekend and will issue four hydrologic forecasts per day.
  - Staffing will be adjusted if conditions change.

#### **Department of Water Resources**

- The Department of Water Resources (DWR) Flood Operations Center (FOC) will be activated with an Operational Period of 0700-1900 hours through the end of the week.
  - A daily briefing will be conducted at 1000 hours until further notice.

#### **Cal OES Law Branch**

- The CalOES Law Enforcement Branch continues to monitor weather changes statewide for any law enforcement related impacts as a series of storms descends on California. There are flood warnings and flash flood watches in Northern California as a result of these most recent storms.

#### **Cal OES Fire and Rescue Branch**

- The CalOES Fire and Rescue Branch will continue to monitor weather impacts in preparation for any new or renewed concerns.
  - [A Cal OES Deputy Chief has been assigned to the Department of Water Resources \(DWR\) DOC.](#)
  - [2 Cal OES Assistant Chiefs assigned](#)

#### **Critical Infrastructure.**

- None reported at this time.

# **SITUATION SUMMARY**

## **2017 Statewide Winter Storms**

### **Cal OES Coastal Region**

- Coastal Region continues to monitor activity throughout the region, including the impacts from storms that brought significant wind, and heavy rains.

### **Activations**

- None at this time

### **2017 February Winter Storm Proclamations**

- A Proclamation from Humboldt County has been received due to 2017 February Winter Storms requesting state and federal recovery assistance including funding assistance through the California Disaster Assistance Act (CDAA).
- See Proclamation Slide.

### **2017 January Winter Storm Proclamations**

- See Proclamation Slide.

### **River Forecast - The following rivers are forecast to meet or exceed Flood stage:**

#### **Lake County:**

- Clear Lake at Lakeport is forecast to crest above flood state at 9.7 feet the morning of 02/18/17.
  - Potential Impacts: Low lying structures and some main roads around the lake are threatened by the high lake levels.

### **River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:**

Humboldt County: Eel River at Fernbridge

Solano County: Sacramento River at Rio Vista

Monterey County: Salinas River at Speckels; Salinas River Brandley

**Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>**

# **SITUATION SUMMARY**

## **2017 Statewide Winter Storms**

### **Cal OES Inland Region**

- Cal OES Inland Region are monitoring the Operational Areas (OA's) who are dealing with high water levels and other impacts from the February 2017 storms.

### **Activations**

- Butte County EOC
- Merced County EOC
- Plumas County EOC
- Sacramento County EOC
- Sutter County EOC

### **2017 February Winter Storm Proclamations**

- A Proclamation from Stanislaus County has been received due to the 2017 February Winter Storms. The County has requested financial and other assistance to mitigate flood conditions and that the proclamation be forwarded to the Governor.
- See Proclamation Slide.

### **2017 January Winter Storm Proclamations**

- See Proclamation Slide.

### **Evacuation Centers and Shelters**

- Merced County:
  - Yosemite High School, 1900 G Street, Merced
  - Midnight Population: 0

# SITUATION SUMMARY

## 2017 Statewide February Winter Storms

### Cal OES Inland Region (Continued)

#### **River Forecast - The following rivers are forecast to meet or exceed Flood Stage:**

##### **Tehama County:**

- Sacramento River at Tehama Bridge is forecast to be above flood stage at **217.4** feet the **afternoon** of 02/16/17.
  - Potential Impacts: Between 213.0 and 214.0 Feet the county park becomes inaccessible. Lower trailer park slots (temporary slots) start to flood.
- Sacramento River at Vina Woodson Bridge is forecast to crest above flood stage at **185.3** feet the **evening** of 02/16/17.
  - Potential Impacts: **South Avenue start to flood east of the river.**

##### **Glenn County:**

- Sacramento River at Ord Ferry is forecast to be above flood stage at **115.8** feet the morning of 02/17/17.
  - Potential Impacts: Design overflow level for M&T, 3BS and Goose Lake Flood Control facilities to divert flood flows into Butte Basin. M&T overflows closing River Road from Ord Ferry Road to Chico River Road. Ord Ferry Road is already closed.

##### **Yolo County:**

- Yolo Bypass at Lisbon is forecast to be above flood stage at 22.2 feet the morning of 02/18/17.
  - Potential Impacts: Kearney Ranch House floods.

##### **San Joaquin County:**

- San Joaquin River at Vernalis is forecast to be above flood stage at 29.3 feet the afternoon of 02/16/17.
  - Potential Impacts: Severe seepage occurs outside the levees. The area covered by seepage will increase as the river stage rises.

##### **Merced County:**

- Merced River at Stevinson is forecast to be above flood stage at 71.9 feet the morning of 02/19/17.
  - Potential Impacts: Flood Stage.

- Counties: [Humboldt County](#), Napa County, Santa Cruz County, Sonoma County

**Proclamations for Inland Region:** Counties: Alpine County, Lassen County, Mariposa County, Merced County, Modoc County, Shasta County, Sierra County, Siskiyou County, [Stanislaus County](#), Sutter County, Yolo County

Towns/Cities: [Town of Truckee](#)

**Proclamations for Southern Region:**

- None reported.

# Key Points

The current break between storm systems will continue today, with strong winds and precipitation returning to northern CA Wednesday. Several storm systems will occur into the weekend and early next week. Areas experiencing flooding will likely continue to have impacts into early next week.

- Minor to moderate flooding along unregulated rivers, streams, roadways, and low-lying areas continues, and will have additional inflow Wednesday through the weekend.
- Heavy snow will cause hazardous travel over Sierra passes with travel delays likely Thursday and Friday into Saturday, and again Monday through Wednesday next week.
- Winds will be strong enough to potentially create some tree damage and areas of power outages Wednesday into Thursday.
- Rockslides and mudslides possible, especially along mountain slopes and steep grades during and following the periods of additional rainfall, especially Friday in Southern CA.
- Debris flows are also possible over burn scars with periods of brief heavy rain (greater than 0.50" per hour), especially Friday into Friday night

# California OES Impact Threat Matrix

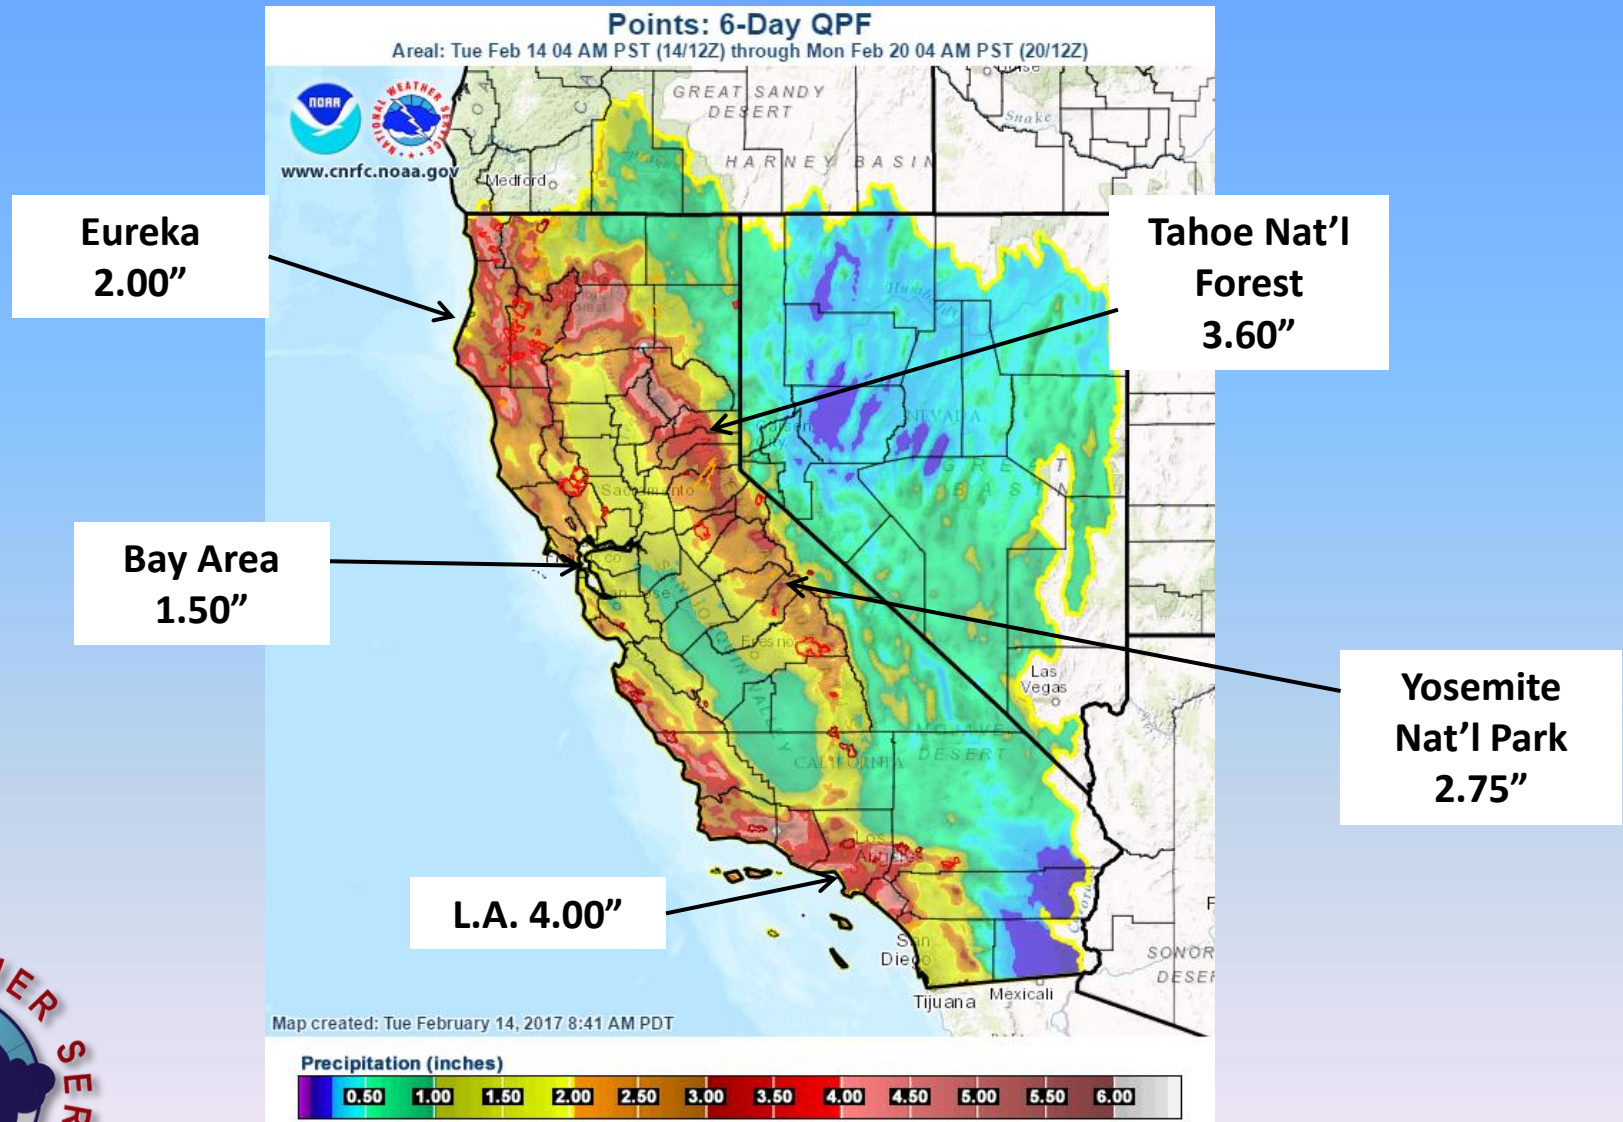

Feb 14, 2017 – Feb 20, 2017

DAY/THREAT	TUE	WED	THU	FRI	SAT	SUN	MON
Freezing Rain							
Winds							
Snow							
Heavy Rain/ Flash Flooding							
Debris Flows/Mud Slides							
River Flooding							

	High Threat
	Moderate Threat
	Slight Threat
	No Discernible Threat

# 6 Day Precipitation Forecast

**Valid Tuesday, February 14, 2017 – Sunday, February 19, 2017.**

# **Cal OES 2017 Statewide Winter Storms Proclamations**

## **Governor Brown Requests Presidential Major Disaster Declaration Due to January Storms**

- Governor Edmund G. Brown Jr. requested a Presidential Major Disaster Declaration for the state to bolster ongoing state and local recovery efforts following January storms that caused flooding, mudslides, erosion, power outages and damage to critical infrastructure across California.
  - Full request can be found [here](#)
- Governor Brown also issued an executive order that adds the counties of Amador, Mono and Riverside to the 49 counties already included in the emergency proclamation issued last month due to January storms.
  - Full text of the Executive Order can be found [here](#)

**Proclamations have been received from the following counties, cities, tribal governments, and special districts as a result of the 2017 January Statewide Winter Storms.**

### **Proclamations for Coastal Region:**

## California 911 System

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outage	No 911 Outages	No 911 Outages

### Service Interruptions:

#### **Community of Pike, Sierra County**

- Per the Cal OES 911 and Telecommunications Branch, no 9-1-1 centers or PSAPs (Public Safety Answering Point) are affected.
- [As of 02/13/17 at 2206 hours, per the Cal OES 911 Branch:](#)
  - AT&T ran a bypass cable around the landslide area that is located in Yuba County, yesterday 2/12/17. When tested, only half of the impacted dial tones were restored which included Pike Fire dispatch.
  - AT&T suspects that one of the exchange pedestals servicing the area is still under the landslide area.
    - Yuba County hasn't cleared the mudslide due to safety concerns.
  - AT&T will continue to troubleshoot the issue but does not expect to have an estimated time of return of the service to remaining customers until Yuba County clears the landslide area for access.
  - Pike Fire Dispatch, confirmed residents have cellular service and have had cellular service during the landline outage.

### Remote/Community Isolations:

- None reported

# **WEATHER OF CONCERN**

## **Weather of Concern**

- The weather will remain dry until Thursday. Beginning on Thursday, a series of storms will bring renewed precipitation over California and potentially continue for the next 10 days. In the next 6 days, precipitation totals will vary from 1.0 inches in the Southern Sierra to over 6.0 inches in the Northern Sierra. The mid range forecast shows continued precipitation over California through the end of the 10-day period. Once the rain arrives, snowlines will drop to the 4000 to 6000 feet range.

## **Active Weather Warnings, Watches and Advisories by County:**

[http://www.wrh.noaa.gov/sto/brief/www\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php)

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

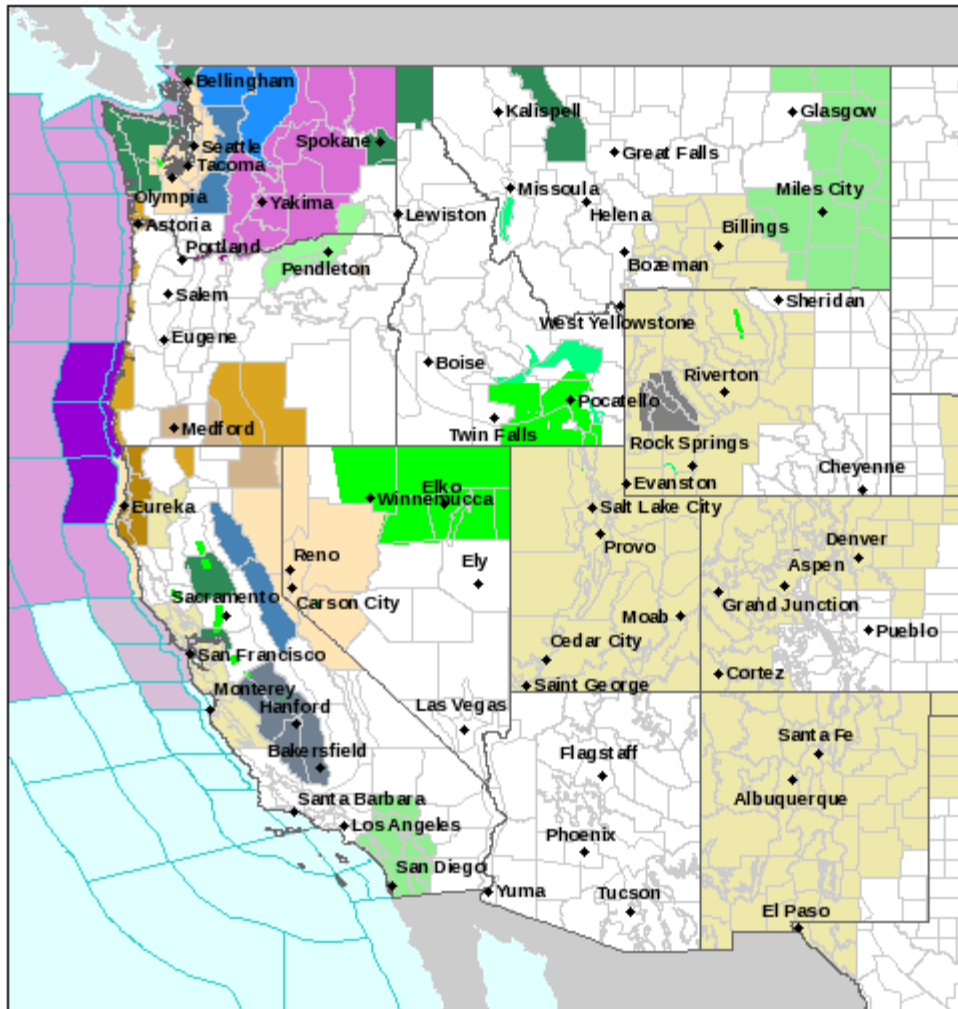

Mild and dry weather can be expected throughout Northern California through Tuesday as high pressure sits over the region, although variable high cloudiness will keep skies from being clear. Gusty NE-E winds in some of the wind-prone areas from the west slopes of the Sierra to the coast will return tonight and early Tuesday, but not as strong as this morning. Peak gusts will be 25-35 mph, and only in isolated spots. On Wednesday the high will move off to the east and the next approaching Pacific storm system will spread rain showers into coastal areas with snow levels above 7000 ft. Clouds will increase over the remainder of the region, and by sunset rain and high elevation snow will reach much of the northern and western portions of Northern California. Strong southerly winds will increase over the northern mountains, with peak gusts in the most wind-prone locations reaching 50 mph or more in the afternoon. Rain and mountain snow and gusty SE to SW winds will spread to the remainder of the region Wednesday night and Thursday, and snow levels will drop to 3500 ft in the north and 5500 ft in the south as the main cold front moves through on Thursday. After a brief break Thursday night another storm system with similar snow level and wind patterns will move in Friday and exit Saturday. A colder system with lower snow levels is expected Sunday, followed by a stronger storm Monday and Tuesday.

## **SOUTHERN CALIFORNIA**

There will be little change in temperature and humidity today as a weak ridge of high pressure remains over California. Maximum temperatures will be 5 to 10 degrees above normal, with 50s to low 60s across the mountains and mid 60s to mid 70s in the valleys. Minimum humidity will be mainly between 20% and 40%. The ridge of high pressure will strengthen bringing warmer and drier conditions Wednesday. Maximum temperatures will warm 10 to 15 degrees above normal, with upper 50s and 60s across the mountains and 70s to low 80s in the valleys. Minimum humidity will drop to between 12% and 25% away from the San Joaquin Valley and immediate coast. Winds will be light across the region through Wednesday. A series of Pacific storms will bring periods of rain to the area Thursday through the middle of next week. The two strongest storms will occur Friday into Saturday and Monday into Tuesday. Most locations will receive well over an inch of rainfall with these storms. The snow level will start off around 8,000 feet and then drop to 6,000 feet this weekend. The snow level will most likely rise back up to around 8,000 feet early next week as the second storm moves into the area. There will be periods of strong south to west winds Thursday through the middle of next week, especially just ahead of the two big storms. Temperatures will cool Thursday, but still be above normal and then temperatures will be near or a little below normal Friday through the middle of next week.
